Love the Outdoors?

Then the School of Forestry at Louisiana Tech University may have what you are looking for in a career.

Have you considered a career with wide ranging opportunities? One that will allow you to work in the great outdoors, help protect and wisely manage our renewable natural resources, and really make a difference in the world?

Forests are one of the world’s most important resources. They cleanse the air, contribute to water quality, protect the soil, provide wildlife habitat, offer a wide variety of recreational opportunities, and produce renewable raw materials for energy, shelter, and paper products.

Louisiana Tech’s School of Forestry offers several degree programs that will help you realize your full potential to meet society’s ever increasing need for commodities, services, and a healthy environment, all of which comes from our forest ecosystems.

A degree in Forest Management might be for you if you have an interest in managing forests to provide the amenities and products that are essential to life. Maybe a career in Wildlife Conservation would be more to your liking. If you have an interest in natural resources and computers then perhaps you would like Geographic Information Science. Whatever your interests, we have an option for you!

Improving our environment one student at a time!

The Directory of Louisiana Foresters is published by the Louisiana Society of American Foresters and a Forester’s Fund Grant from the National Society of American Foresters

Editor: Kerry Livengood

About the Cover: SAF member Kerry Livengood discovered this tree while teaching a tree identification class for Forestry Awareness Day in Rapides Parish. It is an American Beech with bark similar to an oak tree. It is so unique, there is only one other known tree with similar characteristics in the United States. A close up of the bark can be seen at CompassPointSystems.com

Thanks to the Louisiana Technical College – Oakdale, Forestry Technician program and the LSU AgCenter, Baton Rouge for help with printing this Directory.

A Message From the Louisiana State Chairman

On behalf of the 2007 Executive Committee of the Louisiana Society of American Foresters (LASAF), I am pleased to present our effort to publish a list of professional foresters living in Louisiana. LASAF last published a directory of all LASAF members in 1984. For the purposes of this directory, professional foresters are defined as those people who successfully graduated with at least a four year degree in forestry from a college or university having a specialized curriculum in forestry.

We decided to list all graduate foresters in this directory who submitted information to us, as opposed to limiting the directory to Louisiana Society of American Foresters members. We made repeated efforts to contact foresters known to us, but not did include information from unresponsive foresters or those who were somehow missed. We apologize to those foresters we missed. If you qualify for inclusion in this directory but do not appear in it, please contact us so that we can include you in future updates.

We plan to distribute this directory to all of those foresters included in the directory as well as to various agencies where landowners go to seek professional forestry assistance. We also plan to publish the directory on our website: http://lasaf.homestead.com

We hope you find this directory useful for contacting forestry professionals in Louisiana.

Sincerely,
Steven K. Templin, A.C.F., C.F., R.F.
2007 President, Louisiana Society of American Foresters
A Message From the Executive Director

It's been twenty years or so since a directory of foresters was published in Louisiana. There are several issues that encouraged the SAF to invest time and money in this task. Urban areas are merging into forest areas as many people have chosen to buy acreage and build homes in the country. This places new demands on forest management, especially on fire protection and forest harvesting and regeneration. Like any construction job, forest management activities are not pretty. Building a new forest is aesthetically costly, whether nature is the force behind the change as with fire and hurricanes or if it is as a result of active forest management. Forest land owners need the specialized skills of foresters to protect and restore forests whether they have come to the forest from cities or grew up there. There have also been changes in the forest industry that have made it more difficult to locate foresters. Industrial foresters were once active as extension foresters, helping landowners with management of private lands in hopes that this would increase the quality and quantity of wood available to the industry. In the past few years many of these companies have sold their lands to management organizations that do not have all the same goals as the industry once had. As a result foresters are managing more acres that have many different uses. Lands are being sold for real estate development, others are in long term recreational and hunting leases and some are still managed for wood products but foresters are not as available as they once were for landowner assistance. This directory will help forest landowners find a forester with the skills for which they are looking. Foresters have a great variety of skills, from knowledge of the best varieties to plant, how to control exotic and invasive species, or how to protect endangered species these skills are displayed in this publication. I hope the information we are making available will be used to improve the forests and lives of the people of Louisiana.

Regards,

Michael T. Goergen
Society of American Foresters

Who We Are
Since 1900, the Society of American Foresters has provided access to information and networking opportunities to prepare members for the challenges and the changes that face natural resource professionals.

SAF Core Values are:

1. Forests are a fundamental source of global health and human welfare;

2. Forests must be sustained through simultaneously meeting environmental, economic, and community aspirations and needs;

3. Foresters are dedicated to sound forest management and conservation, and

4. Foresters serve landowners and society by providing sound knowledge and professional management skills.

Mission Statement

The Society of American Foresters (SAF) is the national scientific and educational organization representing the forestry profession in the United States. Founded in 1900 by Gifford Pinchot, it is the largest professional society for foresters in the world. The mission of the Society of American Foresters is to advance the science, education, technology, and practice of forestry; to enhance the competency of its members; to establish professional excellence; and, to use the knowledge, skills, and conservation ethic of the profession to ensure the continued health and use of forest ecosystems and the present and future availability of forest resources to benefit society. SAF is a nonprofit organization meeting the requirements of 501 (c) (3). SAF members include natural resource professionals in public and private settings, researchers, CEOs, administrators, educators, and students.
What the Society of American Foresters Can Do For You

New Online Archive – FREE with SAF Membership

The Roots of Forestry™ - Research has Never Been Easier – The Roots of Forestry is the exclusive home to SAF’s journal archives. This online archive encompasses all 5 of SAF’s periodical journals – Journal of Forestry, Forest Science, and the Northern, Southern, and Western Journals of Applied Forestry – from 1902-1999.

The Roots of Forestry gives you access to nearly 100 years of forestry literature comprising approximately 11,750 articles across more than 1,440 issues. Whether you’re looking to rediscover the writings of forestry pioneers such as Gifford Pinchot and Aldo Leopold, or to review silviculture practices of yesterday that still have application value today, it’s all just a click away!

To learn more about The Roots of Forestry, go to www.rootsofforestry.org on the world wide web.

Since 1900, SAF has promoted and advanced forestry professionals in all segments of the profession-government, industry, academia, consulting, and nonprofit organizations.

Join the Society of American Foresters and gain access to a wealth of resources that will save you time and money. You’ll stay informed about the complex world of natural resources, be it research, legislation, education, or new technology. Plus, you’ll have access to discounts on publications, educational programs, forest products and services, insurance, and more.

For just 19 cents* a day, you can reap the enriching benefits of membership in the Society of American Foresters.

*Applies to introductory annual rate for first five years of membership.

SAF’s award-winning, nationally acclaimed publication, the Journal of Forestry, is the most widely read forestry periodical in the world. Join SAF and it’s a built-in benefit. To keep up to date on current forestry news and the many local and national SAF activities, all members receive The Forestry Source each month and the biweekly E-Forester e-mail newsletter. SAF also publishes Forest Science and the Southern Journal of Applied Forestry, Northern Journal of Applied Forestry, and Western Journal of Applied Forestry available in print and online. SAF is also a respected publisher of forestry-related books, all available at a discount to members.

Active Public Outreach

SAF has a vibrant public outreach program that especially targets media. SAF is proactive in placing the forestry message in the nation’s leading newspapers and television and radio outlets. SAF is the public voice of professional forestry.

Career Advancement

If you are looking to make a career move or fill a vacant position, you can count on SAF’s classified ads in The Forestry Source or our comprehensive online Career Center. SAF provides leads and openings for the experienced professional as well as the novice.

Comprehensive Network

A great way to learn is from your colleagues. Make connections by participating in a local unit or through e-mail list exchanges that connect you to a network of colleagues from around the globe. An online mentoring program enables students and new professionals to easily gain knowledge from more experienced members.

Money-Saving Benefits and Discounts for Members Only

SAF members are eligible for special rates and discounts on a variety of products and services: automobile insurance and rentals; tree-marking paint; life and disability insurance; GIS software and online training. SAF will continue to add affinity programs as we develop strategic partnerships.

Technical Expertise

SAF’s working groups focus on areas such as sustainability and forest certification, urban forestry, wilderness management, recreation, measurements, ecology, geographic information systems, silviculture, and forest production and utilization. Unlimited working group participation is included with your membership. Members gain access to information
about upcoming meetings, news, and publishing opportunities related to working group specialty areas.

**Policy Resource**
SAF is your voice in Washington, DC, and at the local level. The Society closely monitors legislation that affects forestry and represents your interests on regulatory and legislative issues.

**Continuing Education**
SAF is your best source for professional development activities, and the only source for **continuing forestry education** (CFE) credits! Advance your knowledge while you earn credits at national and local conferences and workshops, and online. SAF’s **national convention** is a terrific opportunity to discover new tools, techniques, and strategies to attain positive results at work. SAF now also offers continuing education credits for online quizzes with questions based on content from the *Journal of Forestry*.

**Standards of Excellence**
SAF accredits forestry school degree programs to ensure that the integrity of the profession is maintained. SAF members abide by a nationally recognized Code of Ethics. SAF also administers the **Certified Forester®** program, which confers a national credential that verifies specific levels of education, experience, professional commitment, and competence.

The Society of American Foresters (SAF) is the national scientific and educational organization representing the forestry profession in the United States. Founded in 1900 by Gifford Pinchot, it is the largest professional forestry association in the world. The mission of SAF is to advance the science, education, technology, and practice of forestry; to enhance the competency of its members; to establish professional excellence; and to use the knowledge, skills, and conservation ethic of the profession to ensure the continued health and use of forest ecosystems and resources to benefit society.

SAF is a nonprofit organization, meeting the requirements of IRS 501(c)(3). SAF members include public and private practitioners, researchers, administrators, educators, forest technicians, and students. In fact, SAF lists more than 700 job categories and nearly 14,000 different employers among its members.

Please note that $25 of your national dues provides you with all eight issues of the *Journal of Forestry*, $15 provides you with SAF’s monthly newspaper *The Forestry Source*. The remainder is for professional programs and services. We recommend that you consult with your tax advisor regarding the amount that might be used for tax purposes. Use the following form to join SAF today!
SAF Code of Ethics

Preamble

Service to society is the cornerstone of any profession. The profession of forestry serves society by fostering stewardship of the world's forests. Because forests provide valuable resources and perform critical ecological functions, they are vital to the well-being of both society and the biosphere.

Members of the Society of American Foresters have a deep and enduring love for the land, and are inspired by the profession's historic traditions, such as Gifford Pinchot's utilitarianism and Aldo Leopold's ecological conscience. In their various roles as practitioners, teachers, researchers, advisers, and administrators, foresters seek to sustain and protect a variety of forest uses and attributes, such as aesthetic values, air and water quality, biodiversity, recreation, timber production, and wildlife habitat.

The purpose of this Code of Ethics is to protect and serve society by inspiring, guiding, and governing members in the conduct of their professional lives. Compliance with the code demonstrates members' respect for the land and their commitment to the long-term management of ecosystems, and ensures just and honorable professional and human relationships, mutual confidence and respect, and competent service to society.

On joining the Society of American Foresters, members assume a special responsibility to the profession and to society by promising to uphold and abide by the following:

Principles and Pledges

1. Foresters have a responsibility to manage land for both current and future generations. We pledge to practice and advocate management that will maintain the long-term capacity of the land to provide the variety of materials, uses, and values desired by landowners and society.

2. Society must respect forest landowners' rights and correspondingly, landowners have a land stewardship responsibility to society. We pledge to practice and advocate forest management in accordance with landowner objectives and professional standards, and to advise landowners of the consequences of deviating from such standards.

3. Sound science is the foundation of the forestry profession. We pledge to strive for continuous improvement of our methods and our personal knowledge and skills; to perform only those services for which we are qualified; and in the biological, physical, and social sciences to use the most appropriate data, methods, and technology.

4. Public policy related to forests must be based on both scientific principles and societal values. We pledge to use our knowledge and skills to help formulate sound forest policies and laws; to challenge and correct untrue statements about forestry; and to foster dialogue among foresters, other professionals, landowners, and the public regarding forest policies.

5. Honest and open communication, coupled with respect for information given in confidence, is essential to good service. We pledge to always present, to the best of our ability, accurate and complete information; to indicate on whose behalf any public statements are made; to fully disclose and resolve any existing or potential conflicts of interest; and to keep proprietary information confidential unless the appropriate person authorizes its disclosure.

6. Professional and civic behavior must be based on honesty, fairness, good will, and respect for the law. We pledge to conduct ourselves in a civil and dignified manner; to respect the needs, contributions, and viewpoints of others; and to give due credit to others for their methods, ideas, or assistance.

The Society of American Foresters' Bylaws specify processes through which a member's violation of the code may lead to reprimand, censure, expulsion from the Society, or other disciplinary action. Any two persons, whether or not SAF members, may charge a member with violation of the code. Such a charge must be made in writing to the SAF President and must refer to the specific Pledges alleged to have been violated.

At LandMark Systems our primary focus is to consistently help our clients improve their performance and maximize their results. We offer industry leading GPS and forest inventory solutions to help you be more accurate in acreage and timber volume estimates, more efficient in the field and office, and achieve more comprehensive results at the end of the day. LandMark Systems’ patented Real Time Inventory (RTI) allows you to collect both GPS and forest inventory data on the same data collector and integrate the two in the field, greatly increasing your timber cruising efficiency.

For more information on our products and services call for a free catalog or visit us online at www.landmarksystems.com

**Available for Consulting**  
Wildlife/Forestry Management, GIS/Mapping
Why Choose a Certified Forester®?
A forester is a uniquely qualified professional, with at least a bachelor's degree in forestry. A forester learns the art and practice of forestry through comprehensive scientific and technical coursework and practical field experience.

The Certified Forester® program ensures that foresters meet the profession's educational requirements, have at least five years of professional forestry experience, adhere to standards of professional practice, pass a rigorous competency exam, and participate in continuing education. You can be assured you are hiring a qualified forester if you hire a CF.

If you own or oversee forested land and have never used a forester, consider this. A forester can help you assess the value of your forest, increase wildlife, reduce tax liabilities, improve protection from fire, and prevent or control harmful insects and diseases. The forester can develop a forest management plan that starts with your goals and objectives, incorporates regulatory requirements, identifies government incentive programs for which you may be eligible, and provides management alternatives and timeframes.

It helps ensure that your forest provides benefits for you and for future generations and better positions you in the marketplace, potentially making or saving you money. And your forester will be your advocate as you assess and implement the plan options.

So when you hire a forester, you can request references, review educational background, and assess experience or simply ask if that forester has been certified by the Society of American Foresters' Certified Forester program.

School of Renewable Natural Resources

Researching and teaching ways to improve our environment since 1928.

The School offers exciting opportunities for students to pursue a wide range of careers in the conservation, preservation and management of natural resources. We offer two undergraduate programs, as well as M.S. and Ph.D. programs.

Check us out! www.rnr.lsu.edu
